Thank you for the opportunity to comment on Senate Bill 86. The Delaware Healthcare Association supports this bill.

SB 86 requires that everyone who obtains a new endorsement for a motorcycle, or their passenger, to wear a helmet and eye protection for the first 2 years. Helmets are critical to protecting motorcycle riders and passengers from serious head and brain injuries. Delaware hospitals support SB 86 to help reduce the devastating injuries that we see far too often from motorcycle riders who were not wearing a helmet during an accident.

Thank you again for the opportunity to comment. DHA supports SB 86 and looks forward to working with you and the members of the General Assembly to advance this important legislation.

Sincerely,
