The Delaware Healthcare Association, representing Delaware's hospitals, health systems, and related healthcare organizations, is pleased to support Senate Bill 13.

Bayhealth
Terry Murphy,
President & CEO

SB 13 is historic legislation that will transform Delaware's healthcare landscape for the better by establishing a provider assessment in Delaware. This assessment, which nearly every other state in the country has, will enable Delaware to receive additional federal Medicaid matching dollars that will be used to invest in our shared healthcare priorities, including behavioral health, workforce, access, and health equity. Thanks to your leadership and collaboration, this proposal will bring in more than \$100 million in additional healthcare funding to our state.
