Dear Senator Gay,

Thank you for the opportunity to comment on Senate Bill 106. The Delaware Healthcare Association supports this bill.

SB 106 modernizes and expands the concept of maternal mental health by replacing the definition of maternal depression with perinatal mood and anxiety disorder. This Act also avoids use of gender-based pronouns – an important clarification as all caregivers can develop peripartum mood disorders, even fathers or a co-parent. Delaware hospitals will continue to prioritize the mental health of parents, as it's critical to their overall health and the health of their children.
