RE: DHA Support for SB 341 related to the Delaware Health Information Network

Dear Senator Seigfried,

The Delaware Healthcare Association, on behalf of Delaware's hospitals, health systems, and related healthcare organizations, is pleased to support Senate Bill 341, which formally establishes the Delaware Health Information Network (DHIN) as Delaware's Health Data Utility, building on its existing role as the state's health information exchange.

DHA's hospital members are both active users and strong supporters of the DHIN, routinely relying on it to access and exchange clinical information to support coordinated patient care across Delaware's healthcare continuum. These hospitals also serve as significant financial contributors to the network, helping sustain the statewide health information infrastructure. Enabling the DHIN to contract with more organizations will allow them to pursue new data evaluation technologies and improve their data evaluation services for their users, including DHA members.

Thank you for the opportunity to share DHA's support for SB 341 and for your leadership on this important issue. We look forward to working with you and your colleagues in the General Assembly to advance this legislation.

Sincerely,

A handwritten signature in blue ink that reads 'Christina Bryan'.
